### ***Motivational letter***

*Dear Sir/Madam*

*I am writing to apply in winter School at RUDN University «Volunteering in the UN Sustainable Development Goals». Currently, I am a PhD student at the RUDN University, architecture department. Within this program I am focusing my researches on the sustainable development issues in architecture. As such, I am very interested in the UNV in the international project activities aimed at practical solution of the UN Sustainable Development Goals (SDG).*

*I carried out my studies in Algeria, at the University of Tahri Mohammed. Bechar, where I received my Bachelor's degree in Architecture, with a curriculum of design of building and research about urban areas. There, I acquired my strong interest in the effect of urban design on the quality of life. Afterwards, I decided to continue my academic training in the same university, with a Master Degree in heritage architecture. In the same time I did training in "earthen construction techniques" ARCHITERRE "International Festival for Earthen Architectures" at the Polytechnic School of Architecture and Urbanism in Algeria.*

*I believe that my experiences and continuing education make me an excellent candidate for a winter School at RUDN University «Volunteering in the UN Sustainable Development Goals». I have gained professional experience in researches about sustainable development issues in the great Sahara in Africa and an environmental program in Algeria, and participation with CAPTERRE office in festival about sustainable architecture buildings.*

*My academic curriculum provided me a solid knowledge of the different theoretical subjects implied in the research project, and the capacity to integrate different disciplines. In addition, a variety of professional actors, interdisciplinary work and international experiences have also permitted me to develop a keen attitude towards social interactions and communication among different partners.*

*Hopefully, my skills, experience, and knowledge will match your needs and expectations for interns.*

*Thank you for considering my application.*
